

Ross Valley Sanitary District

2960 Kerner Blvd., San Rafael, CA 94901
Tel. (415)259-2949 Fax (415)460-2149

Dear RVSD Customers:

Thank you for helping us protect and preserve our local environment by replacing your privately owned sewer lateral. By allowing the District to assist you with this project, together we will reduce contamination in our community and waterways, as well as reducing treatment costs for the entire Ross Valley. Hopefully, through the District's public outreach efforts, you have learned that nearly 50% of all sewer spills are caused by leaking privately owned lateral pipes. Private laterals are the responsibility of the property owner, from the building to and including the connection at the District main line. The RVSD Lateral Replacement Loan Program was designed to encourage property owners like you to repair or replace your pipe and help to protect the beautiful Ross Valley.

The District offers low interest **loans up to \$10,000** to replace your private sewer lateral. An additional **\$5,000** is available for properties which face higher paving costs due to post-moratorium paving restoration or require removal of illegal storm drain connections. Repayment of loans will be over a period not to exceed ten (10) years at an **annual interest rate of 3.6%**. Payments will be collected through the semi-annual property tax bills as a special assessment.

The following requirements are necessary to apply the District's loan program:

1. Signed Lateral Replacement Loan application (available at rvsd.org),
2. A DVD of the video inspection performed by one of the District's pre-qualified contractors
DVD must be within a year from date of application
3. Completed Sewer Lateral Inspection Report Form (required if RVSD representative is not present for the CCTV inspection), and
4. Three (3) lateral replacement bids from any of the District's pre-qualified contractors
Bids must be within 90 days from date of application.

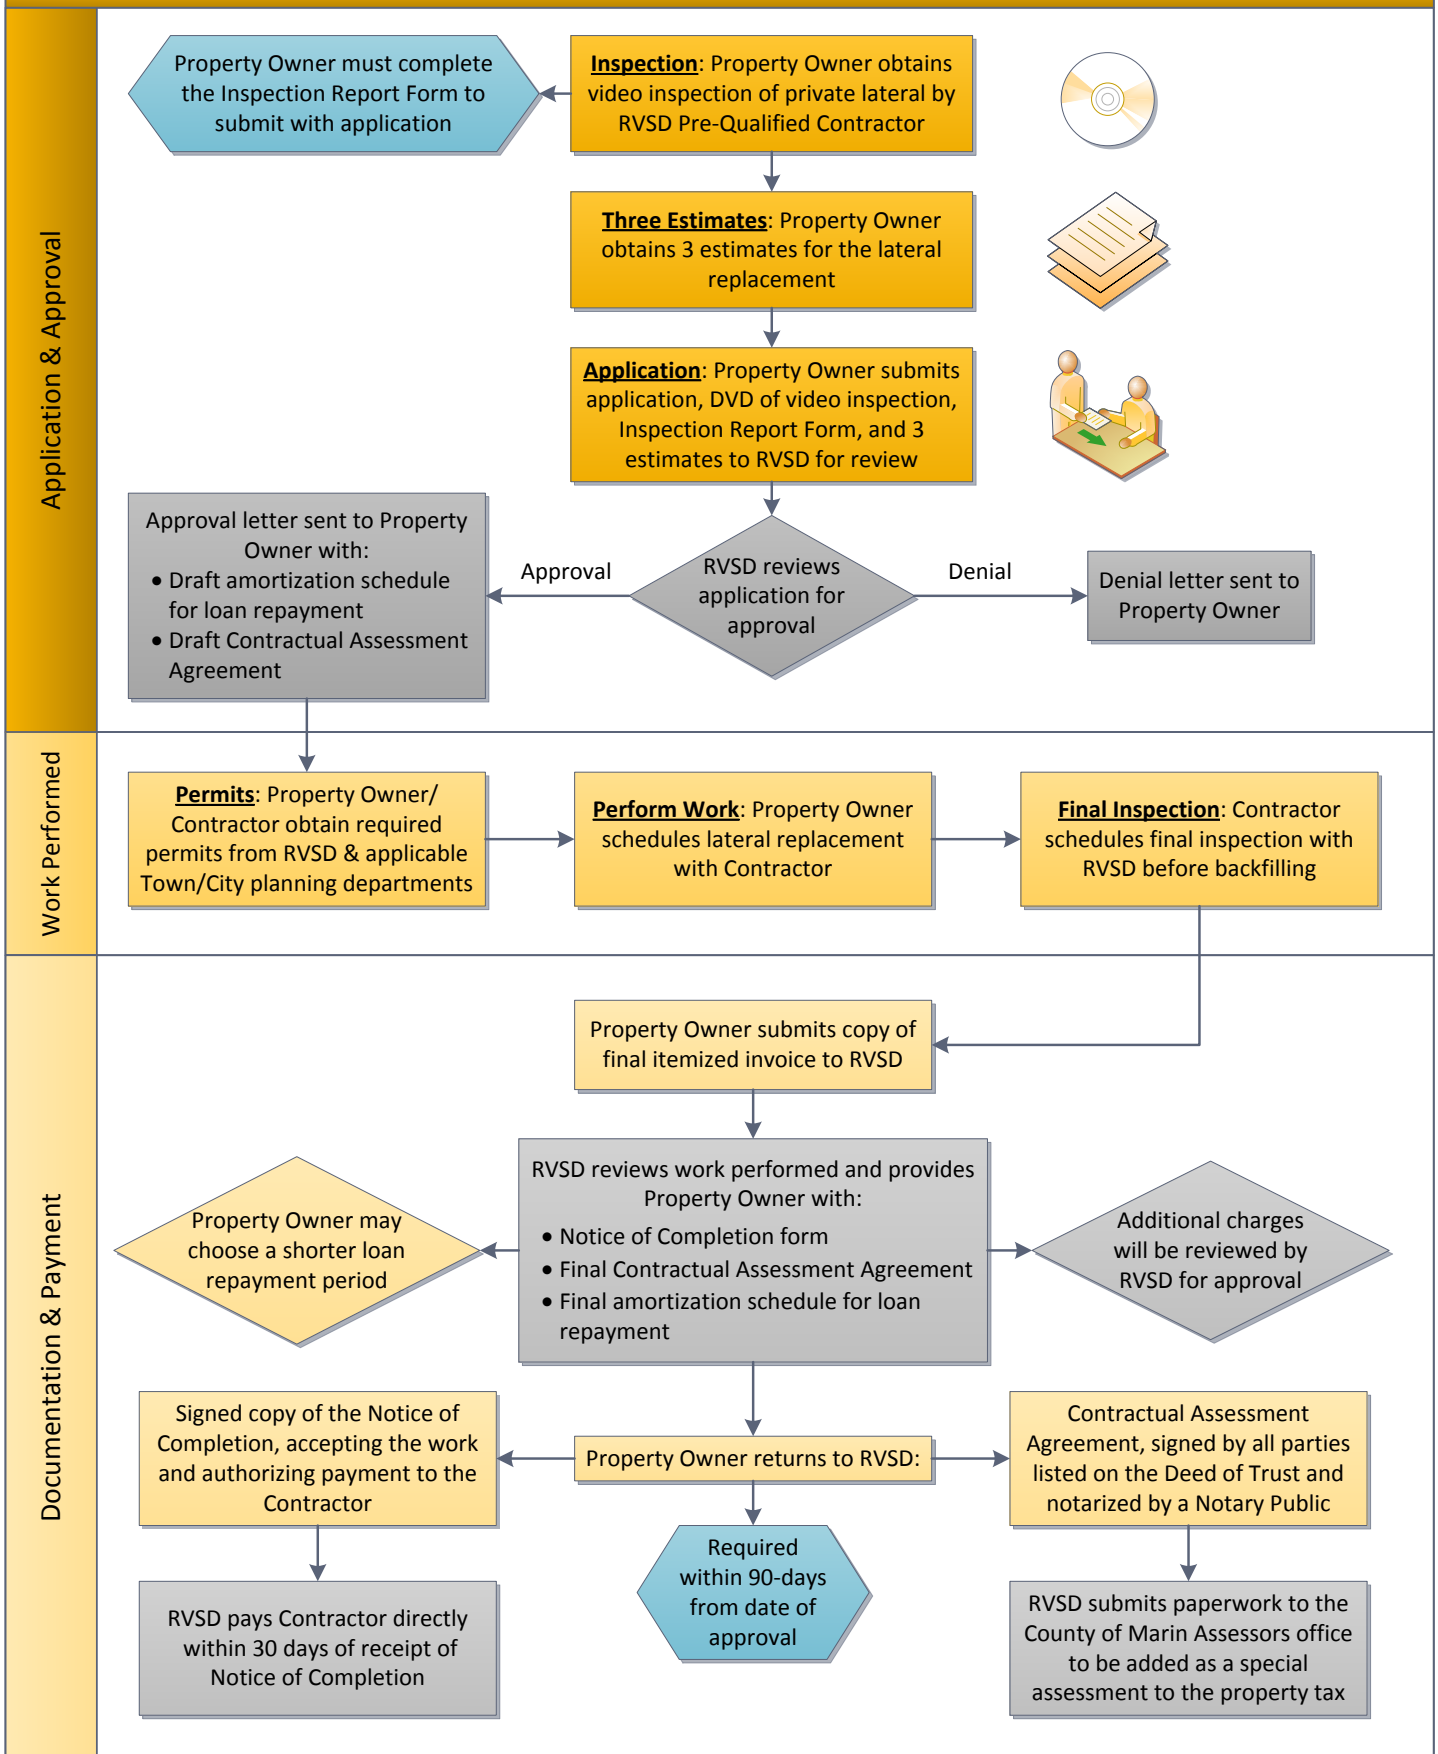

The District will review your application and notify you about the status of your loan request, usually within 10 working days. The District will provide loan funding based on the lowest qualified bid. However, the property owner can choose whichever contractor they'd like to work with. If the application is approved, the Property Owner will be required to sign a Contractual Assessment Agreement, which will be recorded against the property.

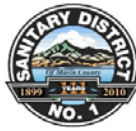

A flow chart of these steps, the Inspection Report Form, the loan application and a list of pre-qualified contractors is included on the following pages. Contractors who are interested in being added to the list should contact the District.

Many contractors already understand the program and can assist you in the applying. We are more than happy to assist you over the phone, in our office, or in the field as well. Please contact us with any questions you may have.

Sincerely,
Greg Norby
General Manager

Private Sewer Lateral Inspection Report Form

This form must be completed by the Property Owner and submitted with the application for the Lateral Replacement Grant Program or Lateral Replacement Grant Loan Program. The Property Owner is responsible for ensuring that the contractor conducting the video inspection meet the following requirements:

1. Visually verify the property address of the lateral being inspected,
2. Lateral must be cleared of significant debris and/or obstructions to provide a clear view,
3. All reasonable efforts must be made to fully inspect the entire lateral, including cleaning and removal of obstructions
4. The camera must move at a slow and steady pace and be stopped for every section joint, defect, and feature for a minimum of 3 seconds

Applications that do not include this form will be rejected. DVDs submitted that do not meet the above requirements will be rejected. Incomplete video inspections, where reasonable efforts to clear the lateral were not made, will be rejected.

Lateral Replacement **LOAN** Program Application

I certify by signing this application that I am the legal owner of the property described herein. I am aware the submission of this document does not constitute that a loan has been approved by the District. I have read the brochure discussing the requirements for the Lateral Replacement Loan Program and am aware that a letter will be issued advising if funds have been approved.

I understand that any repair work performed prior to receiving a letter of approval from the District will not be eligible for a loan.

If approved, loans will be obligated for a period not to exceed ninety (90) days. **I understand that all repair work, inspection(s), and Contractual Assessment Agreement must be completed and submitted to the District within this ninety (90) day period.**
